Supply of substandard seeds to farmers

*534. DR. GYAN PRAKASH PILANIA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the sale of substandard/spurious seeds by unscrupulous seed dealers is adversely affecting the farming community;

(b) the total estimated demand of seeds of various varieties in the country and their total supply by the National Seeds Corporation, the State Farm Corporation of India and State Seeds Corporations;

(c) whether the overall scenario of production/distribution of seeds is satisfactory; and

(d) if not, what steps have been taken so that illiterate farmers get assured supply of genuine seeds, at controlled standard price?

THE MINISTER OF AGRICULTURE (SHRI SHARAD PAWAR): (a) In order to protect the interests of the farmers as regards seed quality a comprehensive regulatory mechanism has been set-up under the provisions of the Seeds Act 1966, Seeds Rules 1968 and Seed (Control) Order, 1983.

(b) The demand for seeds of various crops for Kharif 2007, at existing seed replacement rates, as projected by the States in zonal input conferences is 78,64,186 quintals against which 84,59,679 quintals of certified/quality seeds are available in the country. The quantity of seeds available with National Seeds Corporation, State Farm Corporation of India and State Seeds Corporations are given in Statement *(see* below).

(c) The National Seed Plan envisages the enhancement of seed replacement rate to 25%, 35% and 100% in respect of self-pollinated, cross pollinated and hybrid crops respectively. There is a large gap in seed production and projected seed requirement as per National Seed Plan.

(d) The Government is implementing a number of schemes to enhance availability of quality seeds at reasonable prices to farmers. It is also providing assistance to States to improve the seed quality enforcement.

Statement

Availability of Certified/Quality Seed with various agencies during Kharif-2007
